Underground mains installation, testing & repair services

Water mains

- Polyethylene, Ductile Iron, Barrier pipe

Gas mains

- Polyethylene, carbon steel

Fire Hydrant Mains

- Polyethylene, Ductile Iron, Barrier pipe

Sprinkler Mains

- Polyethylene, Ductile Iron, Barrier pipe

Fuel Lines

- Dual Contained polyethylene

LTHW Heating mains

- Pre-insulated PEX, Polyethylene and steel

Chilled water mains

- Pre-insulated PEX, Polyethylene and steel

Leak detection

- All materials

- Installation
- Testing
- Purging
- Disinfection
- Leak detection
- Repairs
- Diversions
- Live break ins
- Emergency call outs
- Civil works

Public Sector Works

Woodford Plastics has acquired a vast understanding of running public sector works throughout the country. We are greatly experience of working with Local Education Authorities, Regional Water Authorities and other relevant bodies and organisations that become involved with the works that we carry out.

Ultimately, our experience and professionalism relieves some of the project stress burden from our clients.

Some examples of where in the public sector that we have worked are listed below;

Education.....

Redcar & Cleveland College

Woodford Plastics has been involved with the BSF scheme for many years and is full experienced in working on such projects.

All Woodford Plastics Operatives and Personnel are CRB checked to ensure all security issues are in place prior to working on site.

Woodford Plastics operative and all personnel are security cleared to work on all of the UK's major security sensitive projects and institutions and have a wealth of knowledge and experience of all aspects of working in high security areas.

Private Sector Works

In addition to our public sector works we carry out a vast amount of works in the private sector, including;

Miscellaneous.....

Dungeness Power Station

- | | | |
|-------------------------------------|---|------------|
| Chemical & Pharmaceutical Plants | - | Nationwide |
| Nuclear & Coal fired Power Stations | - | Nationwide |
| General manufacturing plants | - | Nationwide |
| Water & Sewage treatment plants | - | Nationwide |
| Industrial Distribution depots | - | Nationwide |

Our workmanship, skills, and the materials that we use ensure we can meet the highest standards required when working on critical equipment in Nuclear Power Stations etc.

Airports.....

Heathrow T5

- | | | |
|---------------------|---|-----------|
| Prestwick Airport | - | Glasgow |
| John Lennon Airport | - | Liverpool |
| Heathrow T5 | - | London |
| Gatwick Airport | - | London |

We have considerable experience in working on the UK's major airports both airside and non-airside. All of our operatives and personnel have excellent security and identity records which mean we do not have any security issues.

Retail.....

Chill Factor E

| | | | |
|------------|--------------|-----------------|--------------------|
| JD Sports | Chill Factor | Trafford Centre | Barton Square |
| Ikea | Tesco | Asda | Morrisons |
| Sainsburys | 3M | HSBC | MBNA |
| Nthrn Rock | Wickes | B&Q | Maplin Electronics |
| Costco | MFI | Ilva | GUS |
| M & S | Littlewoods | Etc..... | |

We have been involved in a large number of retail projects. This includes new retail parks, new stores, extensions to existing stores, and new distribution depots.

We have not listed all of the towns that we have worked in here, for example, we have worked on in excess of 30 x Tesco stores / distribution centres.

Information Communications Technologies - Dual Contained Fuel pipework.....

HSBC Bank

Some examples of where dual contained fuel pipework has been installed:-

| | |
|----------------------------|--------------|
| HSBC Bank NDC | Featherstone |
| EDS | Wynyard |
| United Utilities | Lyngley Mere |
| Wythenshawe Cardial Centre | Manchester |
| ICC Peterborough Hospital | Peterborough |
| Yab School | EBBW Val |
| Whiston Hospital | Prescott |

Storage space for the safe storage of business and our personal data is an ever growing demand. Most Data centres contain their own UPS (Uninterruptible Power Supplies) & power generation. These generators require fuel to run them. In turn the fuel has to be stored in specially designed underground fuel storage tanks.

It is imperative that the pipework which interconnects the fuel storage tanks and the generators is safe and free from leaks. Woodford Plastics provides a professional supply and installation service of

specially designed dual contained underground plastic fuel lines.

Working in close partnership with the pipe & fittings manufacturer we are able to provide an environmentally safe fuel transportation system.

The use of dual contained PE pipework for the transport of fuels and other hazardous substances has a wide ranging number of applications from Data Centers to Hospitals to Airports and others.

What some of our customers have to say about us....

The quality and reliability of Woodfords has been more than satisfactory. Woodfords have carried out the external gas and water installation on this project and we would have no hesitation in recommending their services to be included in further tenders.

We have also required emergency repairs which Woodford have dealt with in a timely and cost effective manner.

Their account Management has been in line with our expectations and all health and safety requirements have been met.

Neil M Smith
Senior Quantity Surveyor
Skanska Rashleigh Weatherfoil

Woodford plastics have just completed some work for me on the Wythenshawe Cardiac Centre, which included gas main, water main, dual contained oil pipework and pre insulated heating mains.

I am very pleased with Woodfords performance throughout the project, from initial quote right through to testing/purging.

The installation was to a high quality and the attitude of the Woodford's office and site staff was of a helpful and collaborative nature, I would have no problem with using Woodford's again

Chris heath
Project Engineer
Haden Young

Woodford plastics are an excellent outfit. Their method statements and risk assessments are excellent, all their men trained ect ect.

I use Woodfords all the time on all my external HDPE & MDPE mains.

One of our best sub-contractors

Steve Wilkinson
Project Engineer
Tyco Fire & Integrated Solutions

I would just like to thank Woodford plastics & particularly **James Firth and Daniel Heaney** for their positive response & hard work when we had the issue last week with the fire water main. The lads worked extremely hard for 9 hours down the excavation & it was only through their endeavours that we were able to minimise the disruption to the site as the incident shut all the site fire systems. We had to start shutting down production plants until the problem was rectified & the lads contributed making sure we had the minimum disruption so please thank them personally for me

Stan Needham
Jacobs Construction Manager
Lilley UK
